ITES - (Information Technology Enabled Services) is an out-sourced process that can be used in various domain verticals, such as Health Care, Pharma, Biotech, e-Commerce etc. This process radically reduces the costs and enhances the service standards. We offer the services with high service standards 24/7. Currently we have an expert pool that handles the following:

1. Technical Support
2. Customer Service
3. Online information and help support

All the above support and services are operated by phone, emails and through live chat. Apart from the above, we also provide.

1. Back office data processing.
2. Data Warehousing.
3. Supply Chain Management.

Professional Services - Calpine is reputed to help its clients achieve a professional web presence that is designed uniquely for them from scratch.
